## Real Patients, Real Results

AGEING AND HYPERPIGMENTATION

BEFORE

AFTER: DAY 29

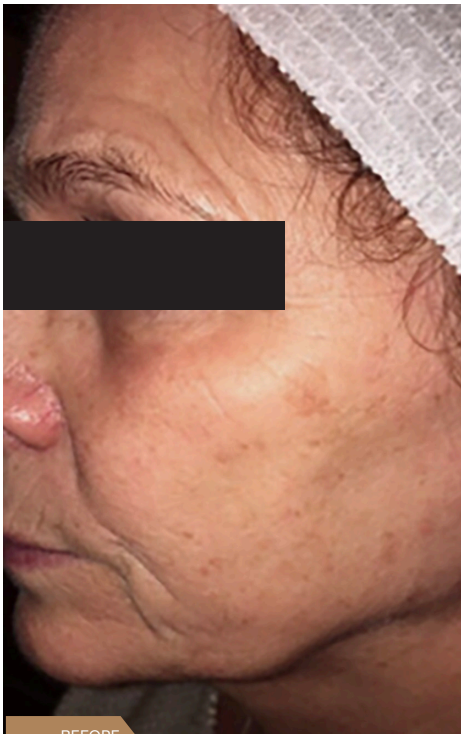

Photograph taken by professional on mobile phone

What the patient said...

“*Before trying AlumierMD, my skin looked dull and was dehydrated. I didn't like my uneven skin tone. I was really impressed with results being so visible so quickly from my products and treatments. I was surprised how relaxing and comfortable the treatments were and with minimal down time too. I have really enjoyed my new skincare regime; the products feel very pleasant on the skin and the results are clear to see.*”
